

# SPECIES EVOLUTION

## LA EVOLUCIÓN DE LA ESPECIE

### MAXI PAN, MAXI HOPPER PAN

The **Maxi Pan** new generation (and **Maxi Hoopper Pan**), is the ideal for weaners and support feeder for weaners.

The superior design and good performance results have turned it into one of ROTECNA's leading products.

The result: a more effective regulation for Maxi Hopper Pan with same easy access for the animals.

#### MAXI PAN

- Pan grill without rivets without sharp edges, very hygienic and easy to clean.

- Lower transport volume thanks to an easy "in farm" assembling.

#### MAXI HOPPER PAN

- More precise adjustment thanks to the progressive regulation.

- Translucent hopper allows checking feed amount inside.

## MAXI PAN, MAXI HOPPER PAN

### ADVANTAGES:

- Pan **grill without rivets** without sharp edges, very hygienic and easy to clean.
- **Translucent hopper** allows checking feed amount inside.
- More precise adjustment thanks to the **progressive regulation**. Registered and patented by Rotecna.
- Lower transport volume thanks to an **easy "in farm" assembling**. Optimizing the transport space, estimated at 20% less.
- To highlight the "J" and "T" anchors to fix the Pan Maxi to slated floors, the same hooks continues in these new versions, its simplicity and reliability are a good guarantee for not changing.
